

## Fun ways to learn: *A Recipe for Fun*

Be creative. Look through different parts of the newspaper (in-print or online) for stories, features and images that spark an interest in your child and use that interest to have some fun. Here's an easy tip to help you have fun while you're helping your child learn:

Choose a recipe with your child from the newspaper or another source. Read it together and discuss fractions. Prepare it together, asking your child to help you read the directions. Then serve it to family and friends.
